It was about 9 a.m. in Sangkhlaburi district of Kanchanaburi ____ (1) _____. I saw several women fishing from a small floating dock on the waterfront. ____ (2) _____. I didn't ____ (3) _____ much attention. My friend and I just went out to have breakfast and then took a ____ (4) _____ boat ride up the river. When we got back from the boat trip, they ____ (5) _____ in the very hot sun.

My friend asked one of them how she was doing, and they were happy to show us the fish they had caught. I took her photo and was very surprise that she and her friends were still there.

There is no way I would be able to sit in the hot sun for that long. Those ladies have my utmost respect and make me to realize just how strong Thai people can be.

Situation: You are Todd Jacobs. You are writing a letter to Samantha, a new student coming to your school next year.

Dear Samantha,

I hear that you will be coming to our school next year and I want to be the first to welcome you.

I ____1____ my first day at the middle school. I was a little bit scared coming to school because I would be with all the older kids. I had never had to switch classrooms before and I didn't know where I would be all of the time. This was scary and ____2____ because I found out that I wouldn't be in class with my best friend. While I was scared, I was also ____3____ because I would get to be in the band and meet new people. As it turned out, everything was fine and I made new friends in my classes.

I hope you have a good summer.

See you next year.

It was the day of the big sale. Rumors of the sale and some advertising in the local paper were the main reason for the long line!. The line was formed by 8.30 in the morning in front of the store. A small man pushed his way to the front of the line. But he was pushed back with loud and colorful curses.

On the man's second attempt, he was punched at the jaw and knocked around a bit. He was then thrown to the end of the line again. As he got up the second time, he said to the person at the end of the line, "That does it! If they hit me one more time, I don't open damn store!"

- ★ 1. Why were so many people waiting in front of the store?
1. To buy discounted things
 2. To be on strike
 3. To follow the store regulations
 4. To break into the store

เฉลยข้อ 1

★ 2. what happened to the man the first time he went to the front of the line?

1. He was cursed and kicked.
2. He was driven away and yelled at.
3. he was pushed to the very front.
4. he was seriously injured by the people along the line.

เฉลยข้อ 2

★ 3. What would most likely happen to the man in the end?

1. He would go back home.
2. He would remain at the back of the line.
3. He would wait until the line was shorter.
4. He would be allowed to go in front of the line and open the store.

Items 1-2

Mount Tambora, on Sumbawa Island, Indonesia, erupted in April 1815. It destroyed most of the island's population and its vegetation. Trees were pushed into the sea along with the volcanic ash. Tsunamis caused by the explosion also affected islands nearby.

But the volcano's destructive power wasn't just limited to that area. The United States experienced extreme frosts and heavy snow even in July, ruining everything in the fields. The same happened elsewhere, causing a worldwide famine. This helped to spread a new strain of cholera in Asia and typhus in other regions.

Experts are now saying that Mount Tambora is likely to erupt again. Steady streams of earthquakes are currently shaking the island. Nobody knows for sure when and how intensely Mount Tambora will explode next, but we know it is awakening, and that's not good at all.

★ 1. According to the passage, what did the famine lead to?

1. The spread of deadly diseases
2. Crops ruined by frost and snow
3. The rise in global temperatures
4. A large amount of ash thrown into the atmosphere

เฉลยข้อ 1

★ 2. According to the passage, which of the following is NOT true about Mount Tambora?

1. It caused damage worldwide.
2. It erupted about 200 years ago.
3. It filled the sea with uprooted trees and ash.
4. It caused tsunamis, but they only affected Sumbawa Island.

Items 1-3

Russians generally don't celebrate birthdays before the actual day because this is considered bad luck. There is a belief that the birthday boy or girl who celebrates a birthday in advance may not live to see his or her special day. Also, many people don't celebrate the 40th because this number is associated with death.

In Russia, a birthday celebration is usually a great dinner with many dishes. It is a custom for the birthday person to provide the feast, and this includes paying for dinner if the celebration takes place in a restaurant.

Russian do not give some kinds of presents to birthday persons. Knives and scissors symbolize future conflict and are therefore seen as a bad omen. Likewise, scarves and handkerchiefs represent sorrow and clocks are a sign of departure. An empty purse is believed to cause poverty. Flowers given for a birthday celebration must be in odd number. An even number of flowers indicates misfortune and even death.

★ 1. According to the passage, which of following is **TRUE**?

1. If Russians celebrate their 40th birthday, they will surely die.
2. Russians do not normally give anything sharp as a birthday present.
3. A Russian girl will likely be glad to receive a Thai silk scarf on her birthday.
4. In Russia, expenses on one's birthday celebration are usually split among friends.

เฉลย ข้อ 2

- ★ 2. For his girlfriend's birthday, what should Vladimir, a Russian boy, do?
1. Say "Happy birthday" to her beforehand.
 2. Give her a bouquet with 8 red roses on her birthday.
 3. Give her a purse with a 103ruble banknote in it on her birthday.
 4. Have a dinner party for her the night before her actual birthday.

เฉลยข้อ 3

- ★ 3. In the last paragraph, how do some other scientists feel about the project?
1. Confident
 2. Excited
 3. Uncertain
 4. Relieved

👉 (O-NET ปีการศึกษา 2560)

Someone recently bought a lock of John Lenon's hair for more than \$48,000 canadian dallars. The 10-centimeter (four-inch) strand of hair is about 50 years old. Hairdresser Klaus Barbus gave Lenon a haircut in 1966 for the movie, "How I Won the War," about a fictional British army troop. He saved the hair all that time. It turns out, it was a smart idea.

John Lennon was a famous British musician---one of the most famous in the world. He was one of the Beatles, perhaps the most popular rock band in history. After the Beatles broke up in 1970, Lennon went on to have an extremely successful solo career.

While he was with the Beatles, he wrote (often with fellow Beatle Paul McCartney) most of the Beatles' biggest hits. He was also one of the band's lead singers, so when you hear a Beatles song, chances are John Lennon wrote it and can be heard singing it.

Lennon died tragically in 1980 when he was 40 years old, but music lovers around the world still remember him and his songs, including "A Hard Day's Night," "Help!" and "I Wanna Hold Your Hand" when he was with the Beatles and "Imagine" and "Give Peace a Chance" afterwards.

Paul Fraser, who lives in Britain and collects Beatles memorabilia (things from and about the Beatles), bought the strand of hair. He paid about three times more than anyone expected, according to the British newspaper, "The Guardian".

★ What did John do after the breakup of the Beatles?

1. He retired from music.
2. He joined a different band.
3. He pursued a career in movie acting.
4. He continued his career as a solo musician.

Items 1-2

On the other side of the sea from Rome, there was once a great city named Carthage. Rome was not on good terms with Carthage and at last a war occurred between them. For a long time, it was hard to tell which was the stronger. First, the Romans won a battle, and then the Carthaginians did. The war went on for many years.

It happened after a while that Regulus, battle and was taken prisoner to Carthage. While he was in prison, the rulers of came to talk with him. They promised to set him free if he could a brave Roman general, lost a Carthage persuade the Roman rulers to make peace with them. They also made him promise that he would return to prison if the Roman rulers refused to make peace. Regulus agreed to do so.

When Regulus arrived in Rome, he was warmly greeted. The Roman law makers came to see him and Regulus told them that he was sent from Carthage to ask them to make peace. But he thought that the Romans should not do so because sooner or later Carthage would be defeated. The next day, after bidding farewell to his wife, children and Rome, Regulus started back to Carthage as he had promised to face a cruel death.

★ 1. What did the rulers of Carthage want Regulus to do?

1. To go home and bid farewell to his family and Rome
2. To persuade Roman rulers to make peace with Carthage
3. To keep his promise to fight for Carthage upon his return
4. To reveal the truth about the Roman rulers and Rome

เฉลยข้อ 2

★ 2. Which of these statements is TRUE about Regulus?

1. He was beaten to death after losing the war.
2. The warriors of Carthage were afraid of him.
3. He was a man who always kept his promises.
4. He defeated Carthage at the other side of the sea.

Items 1-2

Read the research study.

(1) About 25 years ago, a group of Canadian scientists wanted to create a strain of salmon that could survive in fish farms in the cold water off New Brunswick. They took genetic material from Chinook salmon and from an eel-like fish called the ocean pout and injected it into the eggs of an Atlantic salmon. The result was a fast-growing fish that looks and tastes like a regular farmed Atlantic salmon. Some people call it a "super salmon," while others call it "Frankenfish," after the fictional monster created by Dr. Frankenstein.

(2) The controversial fish, called the AquAdvantage salmon, has been genetically modified. That means some of its DNA has been artificially changed. The modified salmon is also "transgenic," which means genetic material from a different type of organism has been artificially added to the salmon's DNA.

(3) The U.S. Food and Drug Administration (FDA), which regulates food in the United States, studied the salmon for several years. In 2010, they decided that the salmon was safe to eat and would have "no significant impact" on the environment as long as it was raised in special facilities and could not accidentally be released into rivers or oceans.

(4) Because so many people requested that the FDA reconsider its decision, the FDA asked for comments from the public. It received more than 35,000 responses. It is still considering these comments and has not yet announced whether it will allow the salmon to be sold as food for humans.

★ 1. According to the passage, which of the following is TRUE?

1. The AquAdvantage salmon is well accepted by
2. The modified salmon is called "Frankenfish" by those who oppose it.
3. The FDA has officially approved the sale of modified salmon to consumers.
4. The modified salmon contains a growth hormone gene from a farmed Atlantic salmon.

เฉลยข้อ 2

★ 2. What is NOT mentioned in the passage?

1. The final decision of the FDA
2. The benefits of the modified salmon
3. The process of creating a transgenic organism
4. The scientists' purposes for creating modified salmon

- (1) In August 2018, a 10-year-old boy named Clark Kent Apuada swam for the Monterey Country Aquatic Team and completed at the Far West International Championship in California. He won the 100-meter butterfly.
- (2) As his name is similar to the renowned superhero, Clark became known as “Superman”. Even more impressive, Clark continues to win awards even though he has only been swimming competitively for four years.
- (3) Clark’s supernatural abilities aren’t confined to the pool, either. “He does piano lesson, he does martial art, and at school if there’s a computer class, he’s always joining. He excels at all of these,” his father, Chris Apuada, said.
- (4) “I love swimming because I have a lot of people supporting me. My coaches are always there for me and my parents are always there”, Clark said. To other trying to discover their own powers, Clark said he believes it’s a matter of determination. “Dream big,” he said, “and always focus on your dreams and have fun.”

★ What is the best description of Clark Kent Apuada?

1. A strong swimmer who support his family.
2. A dreamer with a lot of supernatural support.
3. A boy with good support and strong determination.
4. An average swimmer with a big dream and a lot of support.

A hundred and three huge shipping containers filled with plastic and electronic garbage have been sitting at a port near Manila, the Philippines's capital city. The president of the Philippines, Rodrigo Duterte, gave a "warning" to Canada that it needs to take back the garbage. "Prepare a grand reception," he said, "Your garbage is coming home."

The shipping containers were shipped from Canada in 2012 and 2013. The containers are labelled "plastic." The contents were sent to the Philippines to be recycled.

However, customs inspectors say the containers are actually full of about 2,500 tons of household garbage, plastics and electronics. Only about a third of what is in the containers can be recycled, according to the *Globe and Mail*.

Environmentalists in the Philippines and in Canada say that Canada has an obligation to take the garbage back. They say the waste is "illegal." They point to the Basel Convention, which is an agreement about how hazardous waste may be transported, especially from western countries to developing countries.

Canada is taking steps to reclaim the garbage. However, there is an issue about whom will pay for its transportation because the government cannot try to get the money from the company that sent it until all of the garbage is back in Canada again.

★ What is this article mainly about?

1. The environmental problems in the Philippines
2. The process of recycling plastic trash in Canada
3. A garbage dispute between the Philippines and Canada
4. A treaty on waste disposal between the Philippines and Canada

The Great Sphinx of Giza in Egypt is a 20.22- meter tall stone figure of a lion with the head of a human. The structure of the Sphinx is cut entirely out of rock. Some people believe that there is a hidden area inside which people can enter, but no one has yet found a way to get in. Many stories have been told about the Great Sphinx as if it were a living creature and had the human qualities of being strong and wise.

There is one story about a young man who fell asleep next to the Great Sphinx. The man had gone hunting that day and he was tired. As he slept, the man dreamt that he would become the King of Egypt if he cleared away the desert sand that was partially covering the Sphinx.

But the story oddly had no ending. What do you think happened? Did the boy clean the sand away from the Sphinx? Did he become King of Egypt? No one seems to know.

Over time, wind and sand have worn away part of the Great Sphinx's nose as well as other areas. However, it is now being restored to look much like it once did.

★ Which of the following is TRUE about the young man in the story?

1. He became King of Egypt.
2. The day's hunting tired him out.
3. He dreamt that the Sphinx came alive.
4. He thought he saw the Sphinx's nose.

Also, many people don't celebrate the 40th because this number is associated with death.

In Russia, a birthday celebration is usually a great dinner with many dishes. It is a custom for the birthday person to provide the feast, and this includes paying for dinner if the celebration takes place in a restaurant.

Russian do not give some kinds of presents to birthday persons. Knives and scissors symbolize future conflict and are therefore seen as a bad omen. Likewise, scarves and handkerchiefs represent sorrow and clocks are a sign of departure. An empty purse is believed to cause poverty. Flowers given for a birthday celebration must be in odd number. An even number of flowers indicates misfortune and even death.

★ According to the passage, what are the scientists proposing to do?

1. To reduce greenhouse gases
2. To strengthen the Arctic ice cap
3. To find new habitats for animals
4. To solve the problems of environment

Situation : Mary is talking to Tom before class.

Mary : Tom, I've got diarrhea. What do you think I should do?

Tom : Go and get some sports drinks with electrolytes.

Mary : What is that going to do?

Tom : It'll help rehydrate you and settle your stomach.

Mary : Really? Thanks .You seem to know what's best for me.

Tom : No problem. Also stick to bland food for a while and get plenty of rest.

Mary : _____. Maybe I'll stay home tomorrow.

Tom : You'd better not .Don't forget we have to finish that report tomorrow!

Mary : In that case, I will surely come.

Tom : OK. See you then.

1. That was close
2. That's dumb
3. That's a great idea
4. That's nothing

Items 1-2

Read the research study.

- (1) About 25 years ago, a group of Canadian scientists wanted to create a strain of salmon that could survive in fish farms in the cold water off New Brunswick. They took genetic material from Chinook salmon and from an eel-like fish called the ocean pout and injected it into the eggs of an Atlantic salmon. The result was a fast-growing fish that looks and tastes like a regular farmed Atlantic salmon. Some people call it a "super salmon," while others call it "Frankenfish," after the fictional monster created by Dr. Frankenstein.
- (2) The controversial fish, called the AquAdvantage salmon, has been genetically modified. That means some of its DNA has been artificially changed. The modified salmon is also "transgenic," which means genetic material from a different type of organism has been artificially added to the salmon's DNA.
- (3) The U.S. Food and Drug Administration (FDA), which regulates food in the United States, studied the salmon for several years. In 2010, they decided that the salmon was safe to eat and would have "no significant impact" on the environment as long as it was raised in special facilities and could not accidentally be released into rivers or oceans.
- (4) Because so many people requested that the FDA reconsider its decision, the FDA asked for comments from the public. It received more than 35,000 responses. It is still considering these comments and has not yet announced whether it will allow the salmon to be sold as food for humans.

★ 1. What can be inferred from paragraph 3?

1. The wild salmon may be extinct in the near future
2. The FDA will hold another public hearing on the issue of modified salmon.
3. The modified salmon would become the first transgenic animal to enter the food supply.
4. The modified salmon could harm the environment if they went by chance into rivers or oceans.

เฉลยข้อ 4

★ 2. How do the people who use the term "Frankenfish" feel about modified salmon?

- | | |
|------------|------------|
| 1. Safe | 2. Excited |
| 3. Hopeful | 4. Nervous |
